

My name is Mickey Lukens and I am your 2009-2010 Vice President of Program of Work. I am currently seventeen years old and a senior at Sebring High School in Sebring, Florida where I was born and raised. I was first introduced to the FCCLA organization and its history by my chapter adviser, Ms. Susan Accorsi. However, it was at the state meeting that I had decided I wanted to run for state office. Over the past couple years in FCCLA I have grown to appreciate, even more than I already had, the importance of family and consumer science education and its effect on our daily lives. Outside of FCCLA I keep myself busy. I am currently president of my schools National Honor Society, FCCLA, Student Working Against Tobacco, Highlands County Community Coalition, Youth Advisory Council and a member of the tennis team. In my future I plan on attending Georgetown University in Washington, D.C to major in political science and minor in psychology or philosophy. I love meeting new people and making friends. I always make a point to live every day to the very fullest with the utmost optimism and absolutely no regrets.
